

Dear Dr Goodall

I would like to express my sincere gratitude for the recent group of Cromwell students who visited Mongu and assisted the Zambia Project in uplifting Western Zambia. The team was a great blessing to the people in Mongu and added much value in the time that they spent with us. Mr and Mrs Switzer and the group of students were excellent ambassadors of Cromwell College. All who worked with the Cromwell team, were greatly impressed with the way in which they conducted themselves and the standard of excellence that they displayed in the tasks that they were given. They showed an excellent work ethic and were very considerate and respectful of Zambian culture.

During their time in Mongu, the Cromwell team took part in the following activities:

- Painted a beautiful map of Africa at the Village of Hope School.
- Conducted a variety of lessons for all classes in the school from Preschool – Grade 6
- Built a house in a village for a widowed mother and her 5 children.
- Assisted with the treatments of patients at the VOH Clinic and Save A Life malnourishment Centre.
- Took part in home visits of severely malnourished children in the community.
- Spent time exploring the Zambezi floodplains and playing sports with the children at the VOH childrens homes.

It was an absolute pleasure to host and work alongside this Cromwell team. The Zambia Project is looking forward to the return of future teams as we continue to work together to uplift the Western Province of Zambia. Thank you again for making this partnership possible, I trust the team was also enriched after their time of serving in Mongu.

Yours Sincerely

Matthew Mackie

Zambia Project Leader
